The appellant may make both oral and written presentations to the ICCB at the time the decision is reconsidered.

Section 1501.113 Administration of Detachments and Subsequent Annexations

a) ICCB decisions concerning approval or disapproval of requested detachments and subsequent annexations are required by Section 6-5.3 of the Act to be based on the criteria of being "in the best interests of the schools in the general area and the educational welfare of the students residing within the territory." These criteria are defined as follows:

1) "In the best interest of schools" - The effect of the proposed annexation/new district formation on:

A) Reasonableness of cost to taxpayers of the territory being annexed to an existing community college district or becoming part of a new community college district, i.e., whether the operating tax rate of the community college district exceeds the chargeback levy of the nondistrict territory;

B) Finances of the existing or new community college district, i.e., the equalized assessed valuation of the nondistrict territory is examined to determine how much tax revenue will be generated for the community college district to which the nondistrict territory could annex; and

C) Enrollments of the existing district,

i) which community college the nondistrict territory students have been attending and

ii) effect of additional enrollments when the nondistrict territory is annexed to a community college district.

2) "Educational welfare of students" - The effect of the proposed annexation/new district formation on:

A) Program availability to students of the territory being annexed to an existing community college district, i.e., will the program be more available to students should annexation be approved?

B) Physical access of students to the campus(es) of the existing or new community college district, i.e., what is the distance and time which the students must travel to attend?

C) Cost to students to attend the existing or new community college district, i.e., what are the tuition and fees and commuting costs associated with attending that community college district?

D) And participation by students in their normal economic, cultural, and social activities, i.e., where do potential students shop, work, and attend religious and cultural events?

b) In addition to the criteria identified in subsection a, consideration will be given to the expressed wishes of local residents, such expression to be in the form of signatures on a petition submitted in accordance with the provisions of Section 6-5.3 of the Act.

a) Recognition Provisions

1) Recognition Status. A district will be granted a status of recognition continued, recognition continued-with conditions, or recognition interrupted.

2) Effect of Recognition Continued. A district which has been granted the status of recognition continued will be entitled to receive ICCB grants for which it is otherwise entitled and eligible.

3) Effect of Recognition Continued-With Conditions. A district which has been assigned the status of recognition continued-with conditions will be entitled to receive ICCB grants for which it is otherwise entitled and eligible, but it will be given a specified time to resolve the conditions which led to its assignment to that status. A follow-up visit will be scheduled not sooner than three nor later than nine months after ICCB action on the assignment to determine the district's progress in resolving the conditions.

4) Effect of Recognition Interrupted. A district which has been assigned a status of recognition interrupted may apply for recognition at such time as all requirements set forth by the ICCB have been satisfied. A district on recognition interrupted status will have state funding suspended on a prorata, per diem basis for the period of time for which such status is in effect.

5) Recognition Action. Recognition is considered to be continuous unless action is taken to interrupt it. The ICCB will act on the recognition status of each district at a meeting subsequent to the ICCB recognition report being received. A district which previously has not been granted a recognition status by the ICCB may apply for a recognition status at any time. A district which has the status of recognition continued shall apply for continuation of that status at least thirty days prior to a scheduled recognition team visit.

b) Evaluation. The ICCB staff recognition team will conduct an on-site evaluation of each district at least once every five (5) years. Additional or alternate focused visits may be scheduled to review circumstances of alleged gross noncompliance with ICCB standards. The purpose of the evaluation will be to determine compliance with ICCB standards. No district will be assigned a recognition status without having received a prior on-site evaluation. A district will receive a draft report of the recognition team's findings no later than thirty (30) days after an on-site visit. A final report will be presented to the ICCB at its next regularly scheduled meeting and will include the district's responses to the draft report's findings. Accompanying the final report will be the evaluating team's recommendation for recognition status.

c) Review and Appeal. The ICCB may place a district on a recognition interrupted status for failure to meet ICCB standards after being assigned a status of recognition continued-with conditions and receiving a follow-up visit if the district has not resolved the conditions within the stated time allowed. Any district whose recognition is interrupted may file a written request with the ICCB for a hearing on the decision in accordance with Section 1501.110. Pending the hearing and decision, any consequences of recognition interrupted will be suspended.

d) Recognition Standards. The recognition standards by which a district will be evaluated for recognition purposes will be the applicable statutes within the Public Community College Act and the applicable ICCB rules.

4) Identification of the location of the site and its relationship to the main campus, community college facilities in contiguous districts, and other higher education facilities in contiguous districts.

5) Identification of all estimated costs associated with the purchase and any subsequent construction and/or rehabilitation of the site/structure.

e) Project Priority Criteria. Capital project priorities will be established within the categories named in Section 1501.603(a) according to the following criteria:

1) Land. Requests for state funding for land will be assigned a priority based on the extent to which the state has participated financially in acquiring the following acreage:

A) Up to 1,500 full-time equivalent on-campus day students in the fall term allows eligibility for 100 acres.

B) Between 1,500 and 3,000 full-time equivalent on-campus day students in the fall term allows eligibility for 150 acres.

C) More than 3,000 full-time equivalent on-campus day students in the fall term allows eligibility for 250 acres.

The lower the amount of state financial participation already provided, the higher the priority of the project.

2) Site Improvements. Requests for state funding for parking areas will be assigned a priority based on the extent to which the state has previously participated financially in spaces for 80 percent of full-time equivalent faculty and staff and spaces for the following percentages of students:

A) When public transportation serves the college at least every two (2) hours during the day, twenty (20) percent of the fall term day or evening headcount enrollment.

B) When public transportation serves the college less frequently, fifty (50) percent of the fall term day or evening headcount enrollment.

C) When no public transportation is available, sixty-five (65) percent of the fall term day or evening headcount enrollment.

The lower the amount of state financial participation already provided, the higher the priority of the project.

3) Other site improvements will be assigned a priority in conjunction with the facilities to which they relate.

4) Buildings, additions, and/or structures (including qualifying fixed equipment and planning funds). Each of the following criteria will be considered in establishing priorities of buildings, additions, and/or structures:

A) Type of space to be constructed (in priority order):

i) Instructional space including basic classrooms, laboratories and shops, and preparation and storage areas.
ii) Learning resource centers including libraries, audio-visual centers, and learning laboratories.
iii) Administrative and counseling offices.
iv) Student center, including food service area, lounge area, study area, storage lockers, child care facilities, and facilities for student activities such as newspaper editing, student government, and other student organizations.
v) Physical education facilities, designed primarily for instructional use.
vi) Fine arts center, including rehearsal, practice, and studio facilities.
vii) Support facilities including maintenance shops, garages, warehouses and storage facilities.
viii) Theater and/or auditorium facilities.
ix) Physical education facilities, designed primarily for spectator or recreational use.

B) Utilization of Existing Space. Priorities will be assigned so that the higher the weekly on-campus classroom and class laboratory hours of utilization for credit and noncredit courses offered by the college, the higher the priority assigned to a requested project.

C) Requests for space will be assigned priorities so that the less existing permanent space per student a facility has, the higher the priority of the project. For facilities other than occupational program instructional shops, the following amounts of space are considered to be sufficient: for the first 1,500 on-campus full-time equivalent day students, 110 gross square feet (GSF) per on-campus full-time equivalent day student; for the next 1,500 on-campus full-time equivalent day students, 100 GSF per on-campus full-time equivalent day student; for each additional on-campus full-time equivalent day student, 90 GSF per on-campus full-time equivalent day student. For occupational program instructional shops, 140 GSF per on-campus full-time equivalent day student enrollment in courses using

such shops will be considered sufficient space.

D) Program Considerations. Consideration will be given to the need for special facilities based on the programs to be housed in the requested facilities. Priorities will be assigned so that the greater the need for special facilities the higher the priority. Criteria for need will be:

i) Labor market demand for graduates of the program (as indicated by current manpower data).
ii) Unavailability of special facilities needed for the program.
iii) Other special needs as described in the program justification statement submitted by the college with the project request.

5) Remodeling or Rehabilitation of Existing Facilities. The following criteria will establish the order of remodeling/rehabilitation projects (in priority order):

A) Those projects which will reduce physical health and safety hazards to the general student body and staff (e.g., structural defects/deficiencies).

B) Those projects which will reduce physical health and safety hazards to a limited number of students and/or staff (e.g., handicapped modifications).

C) Those projects which will result in financial and/or natural resource savings (e.g., energy conservation).

D) Those projects which will result in the development of more efficient utilization of existing space.

6) Movable Equipment. Equipment priorities will be the same as those of the projects to which the equipment relates.

7) Utilities. Utilities will be assigned priorities which are the same as those of the projects to which they relate.

8) Additional consideration may be given to the priority ranking of a project if it had previous ICCB approval for planning or construction.

f) Construction Standards. The following standards shall be applied in the design and construction of facilities:

1) Building Efficiency. Campuswide building efficiency should be at least 70 percent. However, individual buildings may be below this level if they are high-rise (four or more floors), include a large number of small classrooms and/or labs, or if a large portion of the building is designed for custodial or mechanical purposes to serve the entire campus.

2) Facilities Codes. All construction, remodeling, and rehabilitation of facilities

shall be in compliance with the following standards:

A) Uniform Building Code (International Conference of Building Officials, Whittier, California, 1988 or BOCA Basic/National Building Code, 1987 Edition (Building Officials and Code Administrators International, Inc., Country Club Hills, Illinois).

H) ASHRAE 90-80 Energy Conservation in New Building Design (American Society of Heating, Refrigeration, Air Conditioning Engineers, Atlanta, Georgia, 1980).

I) Any local building codes that may be more restrictive than the code listed above.

A) The location of the site in relation to geography and population of the entire district and its relation to sites of the district's other colleges, community college facilities in other contiguous districts, and other higher education facilities in contiguous districts.

B) The impact on the surrounding environment, including the effect of increased traffic flow.

C) Accessibility to the site by existing and planned highways and/or streets.

D) Cost of development of the site in relation to topography, soil condition, and utilities.

E) Size of the proposed site in relation to projected student population (as determined by census data) and land cost.

F) The number, location, and characteristics (types of terrain, geography, roadway access, and suitability of the site for building purposes) of alternative sites considered.

4) Requests for primary site acquisition shall include three appraisals of the property.

5) Evidence of need for the space requested shall be provided either on a general enrollment basis as specified in Section 1501.603(e)(4)(C) or a specific program need basis as specified in Section 1501.603(e)(4)(D).

Section 1050.10 Purpose

a) This Americans with Disabilities Act Grievance Procedure ("Procedure") is established pursuant to the Americans with Disabilities Act of 1990, 42 USC Section 12101 ("ADA") and specifically Section 35.107 of the Title II regulations, 28 CFR Part 35, requiring that a grievance procedure be established to resolve grievances asserted by qualified individuals with disabilities. Should any individual desire to review the ADA or its regulations to understand the rights, privileges, and remedies afforded by it, please contact the Designated Coordinator.

b) In general, the ADA requires that each program, service, and activity offered by the Board, when viewed in its entirety, be readily accessible to and usable by a qualified individual with disabilities.

c) It is the intention of the Board to foster open communications with all individuals requesting readily accessible programs, services, and activities. The Board encourages supervisors of programs, services, and activities to respond to requests for modifications before they become a grievance.

Section 1050.20 Definitions

"Board" is the Illinois Community College Board.

"Grievance" is any complaint under the ADA by an individual with a disability who meets the essential eligibility requirements for participation in or receipt of the benefits of a program, activity, or service offered by the Board, and believes he or she has been excluded from participation in, or denied the benefits of any program, service, or activity of the Board or has been subject to discrimination by the Board.

"Complainant" is an individual with a disability who files a Grievance Form provided by the Board under this procedure.

"Designated Coordinator" is the person appointed by the Executive Director who is responsible for the coordination of efforts of the Board to comply with and carry out its responsibilities under Title II of the ADA including investigation of grievances filed by complainants. See 28 CFR 35.107.

Section 1050.30 Procedure

a) Grievances must be submitted through the channels defined below in the form described and within the specified time limits. It is mutually desirable and beneficial that grievances be satisfactorily resolved in a prompt manner. Time limits established

in this procedure are in calendar days, unless otherwise stated, and may be extended by mutual agreement in writing by the complainant and the reviewer at the Designated Coordinator and Final Levels.

b) A complainant's failure to submit a grievance, or to submit or appeal it to the next level of procedure within the specified time limits shall mean that the complainant has withdrawn the grievance or has accepted the last response given in the grievance procedures as the Board's last response.

c) The Board shall, upon being informed of the individual's desire to file a formal grievance, instruct the individual how to receive a copy of the Grievance Form.

Section 1050.40 Designated Coordinator Level

a) If an individual desires to file a formal written grievance, the individual shall promptly, but no later than 180 days after the alleged discrimination, submit the grievance to the Designated Coordinator in writing on the Grievance Form prescribed for that purpose. The Grievance Form must be completed in full in order to receive proper consideration by the Designated Coordinator.

b) Upon request, assistance shall be provided by the Board to complete the Grievance Form.

c) The Designated Coordinator, or his or her representative, shall investigate the grievance and shall make reasonable efforts to resolve it. The Designated Coordinator shall provide a written response to the complainant and the Executive Director within 10 business days after receipt of the Grievance Form.

Section 1050.50 Final Level

a) If the grievance has not been resolved at the Designated Coordinator Level to the satisfaction of the complainant, the complainant may submit a copy of the Grievance Form and Designated Coordinator's response to the Executive Director of the Board for final review. The complainant shall submit these documents to the Executive Director, together with a short written statement explaining the reasons for dissatisfaction with the Designated Coordinator's written response, within five business days after receipt by the complainant of the Designated Coordinator's response.

b) The Executive Director shall appoint a three-member panel to review the grievance at the Final Level. One member so appointed shall be the designated chairperson.

c) The complainant shall be afforded an opportunity to appear before the panel and shall have a right to appoint a representative to appear on his or her behalf. The panel shall review the Designated Coordinator's written response and may conduct interviews and seek advice as it deems appropriate.

d) Upon reaching concurrence, the panel shall make a recommendation in writing to the Executive Director as to the proper resolution of the grievance. All such recommendations shall include reasons for the recommendations and shall bear the signatures of the concurring panel members. A dissenting member of the panel may make a signed recommendation to the Executive Director.

e) Upon receipt of recommendations from the panel, the Executive Director shall approve, disapprove, or modify the panel recommendations; shall render a decision thereon in writing; shall state the basis therefore; and shall cause a copy of the decision to be served on the parties. The Executive Director's decision shall be final. If the Executive Director disapproves or modifies the panel recommendations, he or she shall include written reasons for such disapproval or modification.

f) The Grievance Form, the Designated Coordinator's response, the statement of reasons for dissatisfaction, the recommendations of the panel, and the decision of the Executive Director shall be maintained for a period of three years.

Section 1050.60 Accessibility

The Board shall ensure that all stages of the procedure are accessible to and usable by individuals with disabilities.

Section 1050.70 Case-by-Case Resolution

Each grievance involves a unique set of factors. Accordingly, termination of a grievance at any level, whether through the granting of relief or otherwise, shall not constitute a precedent on which any other complainants should rely.
